EIGHTEENTH YEAR, No. 46

GLEICHEN, ABLERTA, WEDNESDAY, FEBRUARY 4, 1925

SUBSCRIPTION \$2.00 A YEAR

## MINUTES ANNUAL RATEPAYERS MEETING FRIDAY

The minutes of the annual meeting held 25th January, 1924, having been read Geo Matthews moved and N. T. Purcell seconded that the minutes of the previous annual meeting be adopted as read. Carried.

The mayor then outlined in a general way the more important matters dealt with during the year. There had been 14 regular and 15 special meetings. The first important matter was in connection with the building restrictions and fire by-laws which had been passed to comply with the requests of the fire underwriters. These restrictions were so severe that it was soon evident that the cost of rebuilding in the business area were prohibitive and likely to retard reconstruction for a considerable time. From time to time certain modifications were made in the by-law to meet special needs as they arose.

The C P R appeal against the assessment was then referred to and the reason for placing the whole town on a similar basis. This had delayed the assessment till the end of May.

In July the lighting proposals made to the town by R. A. Brown, of Calgary, were received and dealt with by a committee, approved, advertised and a vote taken on 25th July.

The current was turned on Oct. 13th and steps taken to rush the contemplated powerhouse and pumping changes to completion. The exceptionally severe weather had hindered this work, increased the labor costs and delayed the putting of the motors and pumps into operation till 1st of December.

The need for enforcement of collection of all current and arrears of taxes had been dealt with at the beginning of September. The policy outlined by the finance committee was that each one should pay at least one-third of the amount owed not later than the 5th of each succeeding month. This recommendation was adopted and passed by a full vote of the council.

Councillor Wright then dealt with the financial report from the standpoint of the finance committee. He reviewed the arrears outstanding at the beginning of 1924, the tax levies, light and water accounts. He showed that approximately 92 percent of all monies collectable had been collected.

Councillor Wright moved and Councillor McEntee seconded that the report be received for discussion. There being no discussion Mr. Hyndman moved and Mr. Griesbach seconded that the report be accepted. Carried.

Mr. Matthews spoke in a highly commendatory manner of the way the town had been financed during the year. Councillor Brown outlined the report of the work done by the public works committee. They had been limited in the estimates to \$1,000 and he had only exceeded that amount by \$16.07. The rebuilding of and grades across the C P R tracks, maintenance of roads and sidewalks and the repair of the leaks had absorbed the greater part of the money allowed the committee.

Mr. Purcell moved and Mr. Beach seconded that the report be adopted as read. Carried.

Coun. Ferguson took up the power house report. During the first half of the year there had been no trouble with the power plant. The light and water consumption had been very low and the plant was not pushed to meet the requirements. With the introduction of the power from Bassano there was no need for the boilers and steam engine. Changes had been made as speedily as possible but it was the 1st of December before the boiler was finally laid off. One boiler had been sold, while a large quantity of miscellaneous fittings along with two generators were in the yard of the Northwestern Engineering Co. for sale. The remaining

equipment had been listed with the boiler inspector as he was the most likely man to know of prospective purchasers. The new equipment was proving highly satisfactory. The centrifugal pump could lift 200 gallons per minute and only required to operate 20 minutes daily to keep the tank full. The deep well was delivering over 11,000 gallons daily and it was only necessary to operate it for eight hours to keep the reservoir full. There was presently on hand 100,500 gallons of water. A new line had been constructed from the reservoir to a small chamber under the stand pipe from which the centrifugal pump lifted to the tank. It was the intention ultimately to have the office, firehall and pump house all under one roof so that the office furnace could heat all three.

Mr. Beach moved and Councillor Kelly seconded that the report be received for discussion. It was explained that Councillor Ferguson had given his full time to the work during the reconstruction without thought of reward. Mr. Matthews moved and Mr. Sanders seconded that the report be adopted and that a vote of appreciation be accorded Coun. W. F. Ferguson for the time and labor expended by him on this work. Carried.

Councillor McKay made the report for the Fire Light and Police committee. There had been no fires during the year street lighting had been almost doubled since it was taken over by the United Electric and Engineering Co. The principal work undertaken by his committee had been the securing of the two acres belonging to the slaughterhouse as an addition to the nuisance ground. Mr. Bartsch had agreed to donate the land if the council would help take down the buildings and pull the pump out of the well. This had been done with the cooperation of the Board of Trade and several of the citizens. A serious fire hazard had been eliminated and the approaches to the nuisance ground greatly improved. The draymen were now meeting the wishes of the council in regard to dumping on the low ground as far away from the roadway as possible.

In the absence of the Medical Health officer the secretary read the health report. The health of the town during the year had been good and there was no epidemic disease. There were several cases of scarlet fever but only of a sporadic type and very mild. A quarantine had been enforced by the secretary-treasurer who also looked after disinfection and release from quarantine. Two inspections were made during the year by the provincial sanitary inspector, who visited restaurants, laundries, butcher shops and slaughter houses and nuisance grounds and found conditions generally satisfactory.

A few complaints during the year had been investigated by the secretary-treasurer and where necessary ordered remedied. Complaints regarding pigs were investigated and found not to be as represented. Prosecution, however, was ordered by the town and both parties fined for not obtaining a permit from the local board of health.

Mr. Griesbach moved and Mr. Purcell seconded that he report be adopted as read. Carried.

The secretary then went over the printed financial statement and explained some of the items as he proceeded. Mr. Hyndman moved and Mrs. Yates seconded that the report be received for discussion. Carried. Mr. Hyndman said he was glad to see the suggestion of the previous year to have the financial statement printed and mailed at least a week before the annual meeting had been carried out. He then asked for explanation of certain matters which were answered by the secretary-treasurer. This he followed up by a vitriolic attack on the secretary-treasurer declaring that he was careless and negligent in his methods of handling the finances of the town.

The financial report, he declared, was a conglomeration of figures that nobody could understand. It was moved by Mr. Matthews and

## TOWN COUNCILLORS DULY NOMINATED

At one time it was thought questionable whether or not enough candidates could be obtained to make up a Gleichen Town Council for 1925, but when the time came for nominations no less than six citizens were ready to accept the honors, making it necessary to hold an election.

Mayor L. Michael, who had another year to run, but resigned, was prevailed upon to accept the honor for another year, and having no opposition goes in by acclamation.

All of the old councillors either resigned or their terms expired, save Jos. H. Wright. The following men were all signed up Monday:

R. W. Brown  
Kelly  
W. F. Ferguson  
T. W. Bates, Jr.  
Geo. Mose, Jr.  
Wm. McConnell

Of these Messrs Brown, Kelly and Ferguson were on last year's council with Messrs Wright, McKay and McEntee comprised the council last year.

There will be no election for the School Board all going in by acclamation. The following will comprise the board: Madams A. R. Yates and L. Michael, Messrs E. W. Taylor, W. W. Brown and Dr. Farquharson.

## FIREMEN ELECT 1925 OFFICERS

At the business meeting of the firemen the officers of the brigade elected were as follows:

President, Geo. Matthews  
Secy-treasurer, G. H. Gooderham  
Chief, P. Rishaug  
Asst.-Chief, Dan McDonald  
Captain Hose Dept., Ed Menard  
Captain Chemical Engine, J. E. McCorkle  
Captain 2nd Chemical Engine, H. Bowen  
Captain Hook and Ladder, R. M. Stabback  
Captain Hydrants, L. Michael  
Captain Salvage Corps, E. W. Taylor

As a result of the recent dance the firemen after paying all expenses and giving \$100 to the Gleichen Community Hall Association, have still to their credit in the bank the sum of \$126.66, which they hold to meet any expenses that may be required by the brigade.

The financial report as supplied by the Secre-Treas. G. H. Gooderham proved very satisfactory and the brigade starts the year very much encouraged in every respect.

The roads south of town are now in good condition and many autos are coming in every day, the snow having practically disappeared. But north of town the roads are in a very bad state, one old-timer stating they have not been so bad for the past eighteen years. The continued drifting of the snow all winter is the cause of the bad condition and now as the snow melts the centre of the road is piled up with snow and ice from two to three feet high making it impossible for autos to be used and very difficult for the few who have sleighs.

The ladies of the Eastern Star are issuing announcements of their annual dance to take place on February 18th, the proceeds of which will be given to the Community Hall. Their annual dance proved a great success last year and the ladies are out to make this year's even more enjoyable.

seconded by Mr. Hyndman that we recommend that the town obtain a chartered accountant to audit the books at a cost not to exceed \$250. Carried.

The meeting then adjourned.

The annual meeting of the School Board followed immediately and the report of it will appear in our next issue.

## W. I. DANCE ON FRIDAY FEB. 13

The Gleichen Women's Institute ladies are giving another of their successful dances on Friday eve, Feb. 13th, in order to make another payment on the piano they presented to the Community Hall. This is to be a St. Valentine's dance and no effort is being spared to make it a big success both socially and financially, and you will miss something good if you fail to attend this dance.

With each supper ticket there will be an opportunity of securing a dainty prize if you happen to hold the lucky numbered ticket.

There will be other surprises introduced that you will enjoy, as well as Lewis' four-piece orchestra.

## COMING EVENTS

Ads. under Coming Events 25c. per count line, unless otherwise advertised in the Call.

Feb. 7—Sale of Home Cooking by the Ladies Circle.

Feb. 10—Entertainment and Play at Arrowood Consolidated School.

Feb. 13—W.I. St. Valentine's Dance in Gleichen Community Hall.

Feb. 17—R. McKelvie's auction N.E. of Cluny by T. H. Beach.

Feb. 18—Dance in aid of Gleichen Community Hall by ladies of the Eastern Star.

Feb. 19—Auction Sale, H. C. Kowitz N.E. Cluny.

Feb. 21—Blackfoot M. D. election meeting in the Masonic Hall.

Feb. 24—Auction Sale, G. and G. Will, N.E. Cluny.

T. H. Beach will sell by public auction on Thursday, Feb. 19, the live stock, farm implements, household effects, etc., belonging to H. C. Kowitz northeast of Cluny.

Spring must be in sight for last Saturday we saw a whole day load of new auto tires going down the street.

The Blackfoot Municipal District annual meeting of ratepayers will be held in the Masonic Hall on Saturday, Feb. 21st, and not in the Municipal office as stated on the Financial statement issued in the Call last week.

The label on this paper should now show your subscription paid up to the end of the present year. Let us hear from you if this is not the case.

The Gleichen Hospital is an institution that every person in this district should take an interest in. Who can tell when they may need it? of their friends? In this issue a special offer is being made of rates that none can afford to overlook. Read it over carefully.

R. W. Brown is still selling homemade bread at 10 cents a loaf and having on hand a considerable quantity of flour hopes to continue selling at this price at least until the new wheat comes on the market.

## Calgary and Banff to Unite in Carnival

Tip left, Banff parade float in winter gear, babies, a dog and team. Smiley Indians around the Carnival in full force and regalia, and figure skaters, snowmobiling and ice yachting are but a few of the many unusual attractions to the former mountain resort.

**Banff.** Immediately one conjures up visions of the Royal Canadian Mounted Police, the warm days of summer dress, parties, excursions into the snow capped mountains, swimming in the pools, hiding holes, breaks and bathing suits. There are a thousand beautiful memories of Banff in summer time. Consequently few however, have any idea of this mountain resort in winter. The thought at this season is, "What a beautiful short vacation pleasure has fallen. Cold! Certainly no more so than down on the plains where winter there are never interrupted.

Induced by the rocky slopes on practically all sides, high and up, a skier's ski jumps through the winter where the country is not flat, but a great degree, is Banff to the West. The home of Winter Sports, of course, is Banff. The little town of Banff came to life with the coming of snow. One event and community effort follows the other. There is a huge snow machine in Banff, which is used to create a snow effect on all the hillsides and mountainsides of Banff. It is only in the case of a very few years that tourists arrange their trips to take the Carnival at Banff as they now visit New Orleans in March for the Mardi Gras or Pasadena for the Rose Tournament. Apart from the glorious scenery, it is a perfect Winter playground.

Preparations are even now under way for the next Winter Carnival. This is to be held from February 7th to 14th inclusive. It is to be the greatest ever. Calgary estimates have decided to cancel their own carnival arrangements and to unite with the Banff carnival to make it a success. A very comprehensive program of sports has already been drawn up covering events in curling, skating, snow-shoeing, ski running and jumping, ski-jumping, tobogganing, trip-shooting, skiing and swimming in the hot sulphur pools. For none of these sports could the setting or the conveniences be equalled.

For the adventurous visitor Lake Minnewanka offers ice-skating. Dressed in snow is a never failing source of interest. These races are often run down the main street, and, as in other sports, it is often a case of the best dog being beaten on a great deal of comedy is played. It often happens that an over-zealous or jealous contestant gets an opponent in any convenient place and in the ensuing muddle any old hand can waddle home an easy winner. But it is all in the game, and the game at Banff is the outdoor game—with dancing, card or concerts in which each one plays a part in the evening.

For the adventurous visitor Lake Minnewanka offers ice-skating. Dressed in snow is a never failing source of interest. These races are often run down the main street, and, as in other sports, it is often a case of the best dog being beaten on a great deal of comedy is played. It often happens that an over-zealous or jealous contestant gets an opponent in any convenient place and in the ensuing muddle any old hand can waddle home an easy winner. But it is all in the game, and the game at Banff is the outdoor game—with dancing, card or concerts in which each one plays a part in the evening.

## Here and There

At the close of Montreal's 1934 season of ocean traffic on December 2, the Harbor Master announced that 1,222 ocean and coasting ships arrived in the port during the year as against 1,141 in 1933 and 1,184 in 1932, the best previous season. It is the highest number of ships since also been established in the number of lake vessels visiting the port.

The service operated by the Laurier Air Service to the goldfields of Roxy, Que., which was successfully inaugurated this winter, will be continued during the coming winter. Travelers will make the journey in luxury, closed machines with plush seats and a carrying capacity of six passengers being employed.

Canada stands out as the intended British contingent as the most attractive of the Dominions, according to General Bramwell Booth, head of the Salvation Army, who has just completed a tour of this country. The army is now considering the establishment in western Canada of a training school for boys who wish to take up farming there.

Another fine new station was made available to the public by the Canadian Pacific Railway when its company's new building at St. John's, Ont., was opened by H. J. Humphrey, general manager of the company, on December 12. This structure, which replaces the former brick building, is of modern fireproof construction. It will also house the superintendent of the St. John's division and his staff.

Three times winner of the world's champion wheat prize at the Chicago Live Stock Show, including this year's prize, J. C. Mitchell, Agronomy, for the Old Country on a demonstration test of the Canadian Pacific steamship "Manitoba" was announced. Mr. Mitchell states that "the wheat is improving each year and that exhibits which would have won first prize twelve years ago now place him higher than fifteenth place.

A man who hawks at anything is usually treated like a dog.

GLEICHEN, ALBERTA, WEDNESDAY  
NATURAL JOYS

The real joys of life come from the natural forces of things rightly used. Artificial joys are never satisfying. Plain, simple food gives strength and feeling of elation and power. Foods mixed to tickle and excite and to make one overeat, leave one with an unsatisfied and distressed feeling. The joy comes from the pleasant sensation of taste. Proper foods are tasteful, when properly eaten, and leave one with the glow of health.

The mingling of men and women in groups or crowds, with laughter and the flow of wit and humor, with music and joyous dancing, leaves an after glow of happiness and beautiful memory. These are the natural outflow of the human crowd.

The mingling of men and women in groups and crowds and all vying with each other to see who can make the most hideous and unnatural noises, pelting each other with dirty paper or being near laughing as the occasion allows, drinking stuff that will cause an unnatural condition of the mind, cannot leave an ennobling feeling or even a real joy. These are the artificial joys and not lasting or satisfying.

## HAMMERS

A hammer is a most useful and necessary tool in the hand of a carpenter or anyone who has a legitimate use of it. With it you may drive a nail or bruise a finger. When one needs a hammer he needs it badly. It is really a household necessity. "To bring to the hammer" is a term often used when one is compelled to sell at auction his personal property. The carpenter then and the auctioneer as well use the hammer. The minor uses a hammer to drive his drill. The circus man uses a hammer to drive the stakes for the tent ropes. The stone-cutter uses it to guide his chisel. There is the roving hammer the tackhammer, blocking hammer, brick-layer's hammer, steam hammer, the trip hammer. Hammers of stone are still found in the relics of antiquity and are still in use among barbarians. There is the piano hammer, the gun hammer and the dental hammer; the horseman's hammer, the blacksmith's hammer, and the forger's hammer. There are more kinds of hammers than anything else in the world. In mythology there is Thor's hammer by the throwing of which thunder and lightning was caused. Everyone of those hammers, even the mythological one, has some good and legitimate purpose, but there is just one hammer in the world that is the opposite of all others, and that is the hammer which the professional knocker wields with such malicious and fatal results. That is one hammer which should forever be cast out from the line of ancestral hammers of fame and dignity. If you are using a hammer like this, throw it away. Bury it so deep that you will have to go around on the other side of the globe to resurrect it. This kind of a hammer should never be used. The man who wickedly and wantonly wields the knocker's hammer should be forever sledge with a well directed blow on the head with a sledge hammer. Boost—Don't knock.

## HEALTH

There is too much ill health, too much catching of everything, including grip, that happens along. Not a disciple of the spiritualist or even the cult, "better and better", we are, however, a firm believer of not lying down in the road and letting the stylish or prevalent vehicle of disease run over us.

There are simple rules to follow. Have a clear conscience and open bowels. Take a bath at least twice a week, whether you need it or not. Let a little fresh air in the house. Do the Daily Drench exercises every morning. Don't worry and remember your stomach needs about as much care as the furnace. When the latter is clogged up, you have gas, clinkers, soot and no heat. In such a case what do you do? Police, shake it up, stir it up, just physical. Did you ever stop to think that your stomach and bowels need poking, shaking up, get out the clinkers, "grip" and several more of these relations?

## "DO YOU WANT TO BE SHOT?"

"Can't say that I do", chances are, would be the reply around you to be kidding. Carelessness is the cause of the greater majority of accidents with firearms and yet how many of us handle firearms as they were the most harmless weapon used by mankind. The Call hopes it will not have to report a single shooting accident in this district in 1935, and in order to carry out this wish, for your own sake as well as that of your parents and friends pay strict attention to the following:

Never have a loaded gun in the house, automobile or vehicle.

Make sure at what you are shooting. A man's life is a sacred thing and if you take it you will never forgive yourself for it.

Never walk along with your gun cocked—not even when you are alone.
